

Tips for enjoying the Hoolyeh and Friends Folkdance Party

1. Turn your video on. We'd love to dance with you and see your faces. We'll all be making mistakes—after all, it may have been 40 years since the last time you did some of these dances. No one will mind if you're not sure what you're doing. And if you DO remember the dance, set your camera so we can see your feet and maybe follow along.
2. You'll be muted during the party, but if you see a friend you'd like to catch up with, click the three dots in the upper right corner of their video and you can choose to either **Chat** directly with them, or **Pin** them so they show up larger as the only person on your screen.

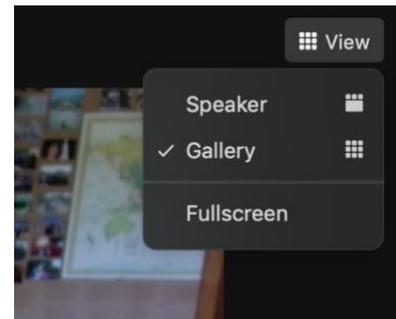

3. You'll also be able to pin people so that you can follow along on dances and can choose the person who is in the best sync with you. To make it easier to find someone to follow, we'll be using **raised hands** to indicate people that know the dance. A raised hand will move someone to the beginning of the gallery. Look for this symbol, which indicates a person who can be followed.

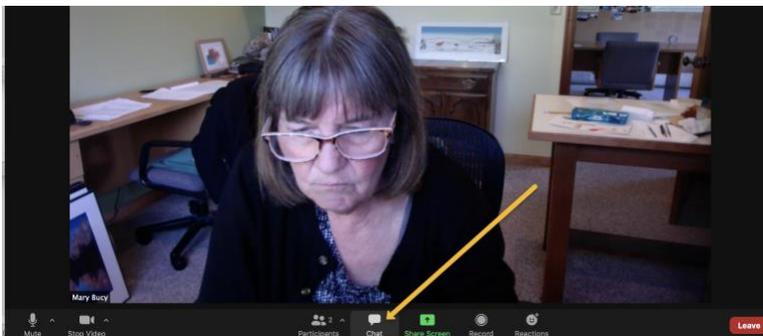

4. Keep an eye on the **scrolling list of dances** showing at the beginning of the gallery. You'll be able to see the previous dance, the current dance (in large, bold letters) and the upcoming three dances as well as the names of 2-3 people who can be followed on each dance. They'll raise their hands and should all be near the top of the gallery so you can find them easily.

Now Playing	Leaders
Pinosavka	Dave & Mary, Debbie
Gocino Kolo	Dave & Mary, Sonia
Silistrenski Tropanka	Dave, Joan, Taffy
Rustemul	Debbie, Joan, Sonia,
Pandalaš	Joan, Sonia, Taffy

5. Print out a copy of the dance program here:
<https://hoolyeh.files.wordpress.com/2021/04/hoolyeh-dance-list4.pdf>
6. Our techs will also post the names of the dances in the chat.
7. We have 80 dances on our program, so we'll be moving through them at a fast clip. We'll play sets of 5 dances continuously with a few seconds between each. At the end of each set, we'll Spotlight two MCs for very short announcements. After the announcements, Zoom will automatically reset to Speaker Mode. You'll want to change it back to **Gallery Mode** for the best view. Click the **View** link in the upper right corner of your Zoom screen at the beginning of each set.

8. If you have questions or difficulties, post them in **Chat**. Someone will get back to you soon with answers.

9. You'll find **Chat** useful to follow throughout the evening. Our techs will post links that are mentioned by the MCs, answers to common questions, directions for things that might come up. And other dancers may be posting greetings, questions, or suggestions.

Can't wait to see all of you on Saturday!
